PAMELA TURNER

It was excellent.! I Never experienced anything like that before. They showed up and help me to put my home back together after being hit by a tornado. I Had shattered windows; Roof blown off. Privacy ripped up. Siding damage alone with water damage. Among other things that were destroyed. They worked long and very hard. They helped me when I felt all was lost. Mr. Baker was angel in a time of need. I highly recommend this Company. I would use them If I were ever placed in this situation again. I cannot thank them enough for the workmanship they gave home in my time of need. Thank you, Pamela Turner,

In working with a new company, it is my nature to be very cautious and even skeptical concerning trusting the work. Even after being recommended by a close family member; I still was concerned about the percentage rate they were asking for, in the contract they presented. I must say however; after seeing their professionalism, work ethic, documentation, and the detailed reports they provided to establish and ultimately win my case; I was not only pleased but I'm convinced enough to say, I would use them again and recommend them to both other home owners and to friends.

Very well. After the water damage, we didn't know what to do next. New Day Services came into the picture, guided us step-by-step, fought to get the line items in our claims vigorously, and helped us oversee the repairs needed to ensure that our home was repaired to 100% satisfaction.

New Day Services is a great company. They were extremely helpful to me and my family. They educated us on the entire process and walked us through it step by step. They brought a full team to assess the damages and we received 700% above what the insurance company offered us. I would definitely refer them.
